

# THE CARE AND KEEPING OF OH MY CUPCAKES!

Thank you for choosing fresh and delicious cupcakes from Oh My Cupcakes! It's an honor to be invited to your special occasion. Oh My Cupcakes! are Baked From Scratch, Baked with Love and Baked Fresh Every Day. In case a few days pass before you enjoy your cupcakes, (although why would they, you should eat these little beauties right this moment) we wanted to provide some tips on keeping them fresh and delicious.

## ENJOYING TODAY?

Choose our signature white boxes which are packaged like a sweet little gift, if you are enjoying or giving cupcakes today. Or choose plastic, (always a nice option,) especially if traveling. Leave them in the box on a counter or table until you're ready to eat them, preferably in a spot that an eager dog or a curious cat can't reach. Not that we're sharing advice from experience or anything. Open the box and plate them (if applicable) just before serving.

## ENJOYING TOMORROW OR THE NEXT DAY?

Our plastic boxes are a bit more airtight and preserve freshness longer. They're the best option if you are enjoying your cupcakes tomorrow or the next day. Stick your cupcakes in the fridge overnight and pull them out, (leaving them in the box) until about two hours prior to serving.

*PRO TIP: If you want to present your little frosted beauties as a gift tomorrow or another day, ask for a gift box. You can repackage them just before giving and enjoying with friends.*

## ENJOYING THREE DAYS OR MORE FROM NOW?

If it's going to be a few days before you get to have your own little cupcake moment of joy, here's some guidance on having the best experience. Pop them into an airtight container and seal them, then put them into the freezer. Remove from the freezer and place onto a plate (or back into their box) a couple of hours before serving. They'll taste nearly as fresh as the day they were baked!

If you have any questions now, or any time in the future, give our Cupcake Ninjas a ring at 605.310.6742. We want you to have the best cupcake experience possible!
